Tourist Bus Simulator : it is the only game in which a bus can race in sand dunes and surfers. It is an unique game in which the player can expect to find a great variety of routes, from medium-length trips to racing tours. The game has a specific focus: the player can select the type of bus, the driver or what are the desired settings (such as the speed and the distance traveled in each trip). The player can also customize the interior and exterior of the bus and the equipment. The game allows the creation of routes between any two points on the island (among which there are stops), and the player can select from a vast variety of routes, in addition to the option of building routes, provided a certain criteria are met. - You have reached the end of the list of updated keys and you're about to download the file, but this software is rated as. - You have reached the end of the list of updated keys and you're about to download the file, but this software is rated as. - You have reached the end of the list of updated keys and you're about to download the file, but this software is rated as. - You have reached the end of the list of updated keys and you're about to download the file, but this software is rated as.
